Laocoönis signum e marmore mira arte factum in Pontificio Viridario Romæ non quale a Virgilio ac Plinio sed cuiusmodi à Græcis describitur.

Telus et Amphiön qui Dircem ad Tauri cornua crinibus alligatam, in fontem proiecerunt, quam historiam Apollodorus de origine Deorum, et Propertius scripserunt. et uelut hic dolineam aspici ita marmore lapide incisa erat Romæ in Palatio D. Farnesiorum. et profecto præcipis omnibus uisus: turis est admirabilis, tum ob lapidis magnitudinem, cum ob admirabile artificium, et figuræ proportionem naturæ.
